BAKING POWDER

The Foundation of our Company is the Foundation of Your Recipes.

Our foray into the food industry was baking powder way back in the 1870's, and it's such a key ingredient to your baking success because if the leavener doesn't do its job, your baked goods are a flop - literally. Clabber Girl Baking Powder remains #1 in the United States, trusted by more bakers than any other brand. We take pride in our trusted formulas and strive to keep our product working, as expected, during both mixing and baking processes.

Our product line continues to expand to meet both the needs of industrial and foodservice kitchens as well as the demands of your consumers.

CORN STARCH and BAKING SODA

Clabber Girl is Your Partner Beyond Baking Powder

When recipes call for baking soda or corn starch, you can rely on America's trusted baking ingredient partner to deliver high quality options you can count on.

Corn starch has a variety of uses but is most commonly used in kitchens as a thickener so your sauces, stews, fillings, gravies and stir fries come out perfectly every time. Clabber Girl corn starch is gluten-free, vegan, and certified Kosher. We also offer non-GMO options.

Like corn starch, baking soda is an extremely diverse product that has hundreds of uses in homes and commercial kitchens. Baking soda is not only a leavening agent frequently found in recipes, but it can also be used as a natural cleaning agent and deodorizer.
